Research Details :

Research Title	: *Symbolic analytical expressions of the physical characteristics for N-dimensional radially symmetric isothermal models* *Symbolic analytical expressions of the physical characteristics for N-dimensional radially symmetric isothermal models*
Descriptipn	: In this paper, literal analytical expressions in power series forms are established for the physical characteristics of N-dimensional radially-symmetric isothermal models. For computational developments of these expressions, an efficient method using continued fraction theory is also provided.
Research Type	: Article
Research Year	: 2004
Publisher	: ARABIAN JOURNAL FOR SCIENCE AND ENGINEERING Volume: 29 Issue: 1A Pages: 67-82
Added Date	: Saturday, June 14, 2008
